

Dear FCC,

I was unable to get through on the Hoosier no-call toll-free number. I don't think my husband did either because we are still on quite a few call lists. We get a minimum of two calls a day from unwanted sales solicitors, travel companies or marketing surveyors, some days it is more than two calls. Occasionally we have even gotten calls from companies calling past 9 p.m. at night, some who insist they are not breaking any laws. That infuriates me. Unwanted parties should not have the right to go on tying up personal phone lines with solicitations for things we do not seek. At the very least, Please protect our personal use, home phone lines and keep these unwanted calls out of my home. Thank you.
